The result? Even MORE lab expertise when you need it most!

#### **About VWR International, LLC**

VWR International is a leading global laboratory supply company with worldwide sales of \$3.5 billion US dollars. VWR International's business is highly diversified across products and services, geographic regions and customer segments. The company offers products from a wide range of manufacturers to a large number of customers primarily in North America, Europe and Asia. VWR International's principal customers are major pharmaceutical, biotechnology, industrial and government organizations as well as universities and schools. VWR International distributes a diversified product mix, including chemicals, glassware and plasticware, equipment and instruments, furniture, protective apparel, production and safety products, and other life science and laboratory products and supplies. VWR International supports its customers by providing storeroom management, product procurement, supply chain systems integration, technical services, and laboratory bench top delivery. VWR International maintains operations in over 20 countries and employs over 6,500 people worldwide. VWR International is headquartered in West Chester, Pennsylvania.

#### **About Terra Technologies, INC**

Terra was established in 1992 as an independent service organization serving the environmental, chemical, and research laboratories in Kentucky and surrounding states. In 1996, we expanded our services, staff, and capabilities and now provide service for the Midwestern US. Our headquarters is located in Louisville, KY which houses administration, equipment/parts inventories, bench repairs and the main sales office. Our service engineers are located throughout our coverage area. Our service center cities include: Chicago, IL, Cincinnati, OH, Indianapolis, IN, Lexington, KY, Louisville, KY, Paducah, KY and St. Louis, MO.

### **About Delta Technical Products Company**

Delta was established in 1970 as an independent sales/service organization serving the Gas Detection and Environmental Monitoring Industries. In 1986, the Laboratory Maintenance Division was developed in an effort to meet the need for a more efficient and cost effective alternative in the servicing of HPLC and GC instrumentation. Since then, Delta has developed into one of the largest independent service organizations in this field. Delta Technical Products' corporate headquarters is located in Des Plaines, Illinois. In addition, Delta has eleven remote offices located in the Midwest, South Central, and Eastern United States. All service requests are received at our main office and distributed to our customer service representatives. Presently, the Laboratory Maintenance Division has eleven remote offices located in the Midwest, Eastern, and Western United States.

### **About Biotechnical Services, INC**

Biotechnical Services Inc. (BTS) was incorporated in California in 1991. It was able to cover all of the Southern California area. Within months, a dynamic service team was formed with expansion of coverage to Arizona and Southern Nevada. During the past several years, BTS has networked with original equipment manufacturers and other independent service providers to create a successful sales, service, and customer support team.
